

Prosperity

Back by Popular Demand...

With all the interest in the first *Business Builder's Intensive* I had to turn away several ready applicants, and made a commitment to do one more this year... This is it.

Our focus will be on **doubling one's income**.

That's right. Let's not just survive...let's THRIVE in 2009.

"When we expand the mind to the concept of doubling, fresh ideas for breakthroughs emerge, because they have to." – Steve Chandler (*100 Ways to Create Wealth*)

On June 12th and 13th, at a hotel in Phoenix and again on December 4th and 5th at the same place, we will meet to engage in this courageous shift in our businesses and our lives.

I am certain that as you join this Intensive you will take your business and your life to the next *new* level.

Here are just a few examples of the courage and success from the first group:

- Greg, a franchise owner, turned his nearly bankrupt business into the #1 fastest growing

franchise of its kind in the country in less than 3 months! His total sales increased by 34.2% and he's still going! As wonderful as that is, if you asked him, he'd likely tell you the neatest part about his experience in the group, is the increased automation of his operations and the resulting amount of time off he now has to golf and how his relationship with his daughters and son have improved. By

courageously applying the concepts I will share with you he not only dramatically improved his business, he improved his entire life. www.BreadSmith.com

- *"Justin Rohner is a force to be reckoned with. He is a genuine, gifted, and giving teacher and his Business Prosperity Course is a guaranteed launching pad for personal and professional growth and prosperity. The course's collaborative and supportive setup was highly beneficial and ensured accountability and repeated revisits to everyone's goals. This course set in motion significant and defining changes in my life and facilitated my personal and professional development. I highly recommend Justin Rohner's course to anyone looking to catapult their business life and to anyone searching for ways to bring the most of themselves into everyday life."*

As a mother of two and a full-time business owner, life can quickly suck away the precious moments and profits too. It's a balance few ever achieve. Yet, after the first 2 days Maja was inspired to integrate more of her gifts and talents into her practice, increasing her effective hourly income from less than \$100 an hour to \$300 an hour – more than **tripling** her income and giving her more time to spend with her two "little rascals."

“Justin Rohner is a very unique and creative individual. He has the remarkable ability of seeing through a situation or problem with clear solutions, vision and guided wisdom. I have worked with him on a variety of ventures and have found him always full of insight, ideas and powerful leadership. He is a man of great courage and compassion and is an asset at whatever he attempts.”

~Terry L. Williams
Business Owner, Life Advisor

Terry, like many in today's economy, recently had to make some major shifts in his business and career, within the first 4 months in the group, he doubled his fee and tripled his client base. But, by his own admission in his final reports, he is just getting started.

What you can expect from joining *this* Business Prosperity Intensive:

More success stories – including *your own*. I will follow a similar structure as the last group, except of course, that it will be custom-tailored to fit YOUR individual business needs just as I did theirs. I will detail the successes of prior clients I've coached (including the “rest of the story” from the last group) and show you exactly what they are doing to *thrive* even in some of today's toughest markets.

We will work collectively to quickly *boost your business* from where you already stand, leveraging the products and services you are already providing. Should you choose to bring a new commitment, venture, product, or service with you it will only *enhance* your experience.

Each week following the initial retreat we will report back and reconnect. You will have direct access to me, one-on-one each week in a powerful, committed session to boost your business and your life. You will also have unlimited e-coaching for the entire six months. I will be with you every step of the way.

Throughout our 6 months together there will be a few healthy surprises and guest contributors to brighten your moments and boost your success. I will include for each member one year PAID membership into in the world mastermind – Club FEARLESS. With members in every state as well as more than 18 countries across the globe, I will show you how to leverage this rapidly expanding group of fearless professionals, like yourself, to further enhance your business and your life.

In addition, we will share our best practices in creating wealth through service and difference-making and you will become more proof of what IS working in today's economy.

“Life shrinks or expands in proportion to one's courage” ~Anis Nin

You are going to love the new levels of *courage* and *creativity* that will arise out of you during our first two days together. And you'll be amazed at the difference you will be able to make with these new insights as you bring them back into your business and your life over the next 6 months.

On December 4th and 5th we will all meet again to celebrate our successes and work as a collective mind wherever necessary to get you aligned with any other goals you may have at that time.

The fee for the group is \$6,500. Terms are prepayment. But, if you choose to join before May 25th you, and anyone else you would like to include in the school, will pay only \$3,000 to secure your seat. The rest you may pay monthly during our time together.

Because I am limiting this to twelve people, please move quickly to secure your place. It would be an honor to serve you in the creation of your income doubling this year in a way that further honors you and those you care most about. Only the **first twelve** who sign up are the ones who will be guaranteed this shift.

I would love to find out if one of them will be **you** and that your input and participation will add tremendous value to the group.

Let's find out! Go [HERE](http://www.JustinRohner.com/contact.htm) to apply: www.JustinRohner.com/contact.htm

More details will follow as soon as the group is complete, and I expect that to be soon.

I look forward to hearing from you.
